SUMMARY

Front-end and embedded systems developer with hands-on experience building web interfaces for IoT products and industrial monitoring systems. Passionate about bridging the gap between software and hardware—from React applications to embedded firmware.

EXPERIENCE

Junior Application Developer and Web Designer

2025 - 2026

Katz Water Technologies

- Designed, developed, and maintained web interfaces for the KMonit IoT water monitoring platform, including real-time dashboards and device monitoring features.
- Developed the RadiPulse Power marketing and product website from the ground up.
- Built modern web interfaces using React, TypeScript, Vite, and Tailwind CSS
- Collaborated on firmware development for IoT devices and assisted with hardware integration.
- Assisted with website deployment, hosting configuration, and production maintenance.

Freelance Developer

2023 - 2024

Commissioned Projects

- Delivered a full e-commerce storefront (Pangasinan Treasure) using vanilla JavaScript, HTML, and CSS for the front end, Express.js for the backend, and MongoDB for the database.
- Built an egg quality inspection system (EggQI) using an ESP32-CAM and an Android application developed with MIT App Inventor.

NOTABLE PROJECTS

KMonit

Project · 2026

Industrial IoT water tank monitoring platform with real-time web and mobile dashboards for multi-site monitoring.

RadiPulse Power

Project · 2025

Marketing and product website for a modular energy storage solution with real-time IoT monitoring. Built with React, TypeScript, Vite, and Tailwind CSS.

SmartPlug

Thesis · 2024

Developed a React Native Android application paired with an ESP-01 smart plug for remote power control and automated scheduling.

EDUCATION

Bachelor of Science in Computer Science

2019 - 2023

Pangasinan State University, Philippines

SKILLS

Programming

TypeScript, JavaScript, Java, C/C++, HTML/CSS

Backend

Node.js, Express.js, MongoDB

Tools

Git, GitHub, VS Code, Figma

Frontend

React, Next.js, React Native, Tailwind CSS, Vite

Embedded

ESP32, ESP8266, Arduino, Raspberry Pi
